

CLEAN-CHECK® VALVES

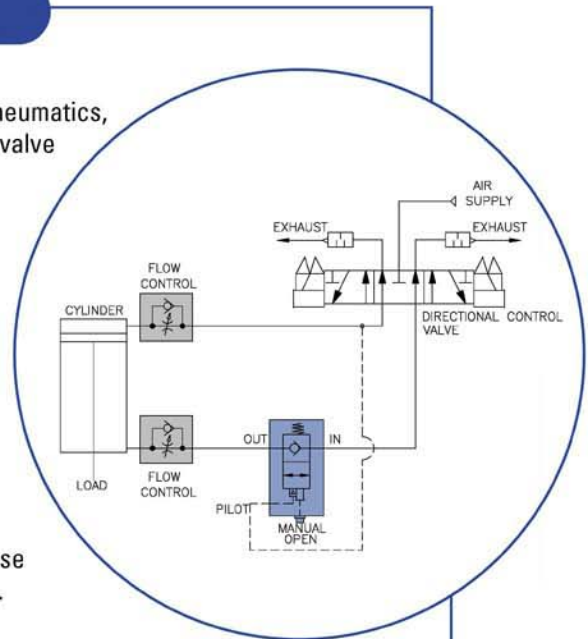

The Clean-Check® Valve, designed specifically for Pneumatics, is a patented ALADCO® product. It is the only check valve on the market with both manual and pilot release capabilities. The bubble-tight seal keeps devices in position. If pressure loss should occur, the valve prevents drifting. To release the seal, depress the manual override button or operate the pilot.

The Clean-Check® Valve is fully sealed for use in clean/sanitary or very grimy environments without its function being affected. The valve is able to tolerate: dust, dirt, oil, grease, detergent, cleaning solution and cutting fluids.

The Clean-Check® Valve has not been designed for use on vacuum, air over oil or high pressure applications.

Features

- All valves are manufactured tamper resistant and require no maintenance
- Superior, self cleaning ball seal provides long leak tight product life
- High strength valve body made of anodized aluminum or stainless steel
- Does not require lubricated air
- Operating pressure 15 - 120 psi
- Cracking pressure 2 - 4 psi
- Exceeds A.N.S.I. Class VI Leak Standard (Bubble Tight) for 1/2" port size

DIMENSIONAL DATA

SPECIFICATIONS

Port Size	A	B	C	D	E	F	G	H	J	K	L	Pilot Port	Cv	Weight lbs. AL	Weight lbs. SS	Pilot Ratio

* A-L All dimensions in inches

Note: 10-32 UNF models have only one mounting hole

ORDERING INFORMATION

To order please indicate your part number(s) by formulating the desired style number for each of the corresponding areas from the list below. See the sample part number at right.

Button Style	Port Size	Seal Type	Options
50	32	01	(if required)

Button Style

- 50 Override Button
- 51 Flush Override Button
- 52 No Override Button

Inlet Outlet Port

- 32 10-32 UNF Thread (M5 Optional)
- 12 1/8" NPTF Thread (1/8" BSPP Optional)
- 25 1/4" NPTF Thread (1/4" BSPP Optional)
- 38 3/8" NPTF Thread (3/8" BSPP Optional)
- 50 1/2" NPTF Thread (1/2" BSPP Optional)

Button Style	In Out Port	Seal	Option Suffix
50	32	01	SS

Seal Type

- 01 Buna-N Seals (Temp. range -30° to 150°F)
- 02 Viton Seals (Temp. range -15° to 400°F)

Special Option Suffix

- SS Stainless Steel Construction
- BSPP BSPP Threaded Ports (M5 for 32 Ports)
- NCP No Cracking Pressure
